

Ontario SEO is Now Foundery Digital Marketing Group

Ontario SEO, a leading digital marketing agency based in Ontario, Canada, proudly announces their rebranding to Foundery Digital Marketing Group.

Since 2005, Ontario SEO built a reputation for providing top-tier SEO and digital advertising services to help growth-minded businesses achieve their online goals. The rebranding to Foundery better reflects the company's commitment to providing a comprehensive suite of digital marketing services, which also includes PPC, social media management, and web development.

The name Foundery was chosen to reflect the company's dedication to crafting data-driven marketing solutions that lay a strong foundation for client success. Just as a foundery molds metal to create enduring structures, Foundery Digital Marketing Group transforms great ideas into powerful digital marketing campaigns that fuel growth.

Foundery will continue to deliver the exceptional results that their Canadian and international clients have come to expect from Ontario SEO, now with an even greater emphasis on innovative digital solutions and integrated strategic partnerships.

"Simply put, we have outgrown the Ontario SEO brand," says Wayne Atkinson, founder and CEO of Foundery. "It is time for our branding to reflect our full range of services and the clients we work with. While search engine optimization is still very much a core area of expertise, digital advertising, organic social, and consulting are also integral parts of our service offering."

This transformation marks a significant milestone in the company's evolution, reflecting both its expanded capabilities and continued commitment to delivering digital marketing solutions that fuel consistent growth, year after year.
